

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
Abuladze	Lilli	Demography - PhD Thesis: Changes in living arrangements of older adults in Europe and the consequences of these changes in health, economic and social outcomes	Estonian Institute for Population Studies, Tallinn University, Estonia
Alderotti	Giammarco	Demography-PhD Thesis: Meta-analysis about the relationship between economic uncertainty and fertility and a longitudinal analysis of this interplay to provide new evidence	University of Rome La Sapienza, Italy
Baranyi	Gergö	Human Geography, neighbourhood-level social and environmental factors	School of GeoSciences, University of Edinburgh, UK
*Basler	Ariane	Life-course research, school-to-work transitions and educational trajectories	Research Associate, COCON, Jacobs Center for Productive Youth Development University of Zurich, Switzerland
Beckmann	Janina	PhD Researcher; study of social inequalities with respect to migration, education and family. Investigate the social integration of immigrants and their descendants in Europe from a life course perspective	Institute of Sociology and Social Psychology, University of Cologne, Germany
Brivio	Magaly	Fertility and low-fertility setting, the role of males in fertility, family policies and the postponement of childbearing	Multi-disciplinary Master's Program in Demography, Stockholm University, Sweden
Cano	Tomas	Family Dynamics; how parental time investments affects children cognitive and emotional outcomes, using longitudinal and cross-sectional time-use data	Department of Political and Social Science Pompeu Fabra University, Barcelona, Spain
Castro Torres	Andrés F.	Demography & Sociology; Life-course perspective to explore the dynamics of family formation and dissolution among international and domestic migrants from/in Latin American countries	Demography and Sociology University of Pennsylvania, Philadelphia, U.S.A.
De Puy Leistner	Jacqueline	Social Work and Social Policies - Adversity and resilience; in violence victimisation, consequences of violence over the life course, mixed methods	Violence Medical Unit, University Center of Legal Medicine, Lausanne, Switzerland

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
Dicks	Alexander	Researching the school to work transition in the Netherlands, with a particular focus on youth not in employment, education or training, using sequence analysis and other longitudinal analyses	Research Center for Education and the Labour Market, Maastricht University, The Netherlands
Engels	Miriam	PhD student; Investigating gendered work and family trajectories and their effect on health in later life	Institute of Medical Sociology Heinrich-Heine-University, Düsseldorf, Germany
Erman	Jeylan	PhD student in Sociology and Demography program. Immigration and family change. Parental separation and schooling outcomes among immigrants in Sweden, and immigrant fertility in Sweden	Department of Sociology and Population Studies Center, University of Pennsylvania Philadelphia, U.S.A.
Gil Solsona	David	Research MA in Sociology and Demography. Transition to adulthood, with main focus being the process of leaving parental home for Mediterranean youth. Interested in applying longitudinal and life course modelling to disentangle and analyse the different events that compose this specific demographic transition in Southern Europe, where this process is much more complex, long and family-led than in the North.	Department of Sociology and Social Anthropology University of Valencia, Spain
Gross	Dinah	Gender and employment trajectories; exploring how teenage representations of occupations in terms of gender and prestige are constructed and how they affect occupational aspirations	Institute of Social Sciences University of Lausanne, Switzerland
Gupta	Garima	PhD in Psychology; health and well-being, cognitive neuropsychology and ageing process	Department of Psychology Arya Mahila PG College, Varanasi, India
Hackl	Laura	PhD from Laboratory for Human Nutrition at ETH, Zurich. Currently working on a project on gene expression and antisocial behaviour. Previously worked at Monell Chemical Senses Center where she investigated human behavioural responses to volatile (social and non-social) stimuli.	Jacobs Center for Productive Youth Development, University of Zurich, Switzerland

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
Hale	Jo Mhairi	PhD in Sociology. Research Scientist, using life course theory and corresponding life course methods to investigate health outcomes, especially later-life cognitive function.	Laboratory of Population Health and Labour Demography, Max Planck Institute for Demographic Research, Rostock, Germany
Hu	Yaoyue	Research Scientist, PhD in epidemiology and public health at UCL, investigating the relationship between alcohol consumption and a decline in physical functioning among older adults from Central and Eastern European countries.	Laboratory of Population Health, Max Planck Institute for Demographic Research, Rostock, Germany
In	Jung	Changes and persistence in inequality and its mechanisms among young people, investigating how class and gender shape the influences of changing macro, socio-economic contexts on young people in the realm of education, work and family formation.	Department of Sociology, Nuffield College, University of Oxford, UK
Islam	Kamrul	Associate Professor in the Department of Population Sciences. Highly proficient in advanced statistical analysis including decomposition analysis, survival analysis and population projection. Research interests are population aging, social epidemiology, fertility dynamics, and international migration.	Department of Population Sciences University of Dhaka, Bangladesh
Kainth	Gary	Practicing social worker, seconded to a RCT evaluating two interventions for children who have been maltreated and are currently in foster care. Interested in relationship between rights of parents, rights of children and the developmental realities of children in care.	Social Work Research Associate Institute of Health and Wellbeing University of Glasgow, UK
Kjaer Aslaug	Agnete	Investigating social inequalities in ageing through a life course perspective.	Danish National Centre for Social Research Copenhagen, Denmark

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
Mattijssen	Lucille	Sociology; looking into the career trajectories of workers in non-standard employment in the Netherlands and strive to make a typology that distinguishes between non-standard employment careers that offer workers good prospects, and careers that lead to more precarious outcomes.	Sociology Department VU University Amsterdam, The Netherlands
McDonald	Patrick	Teaching and Research Assistant, Life Course and Inequality; the effects of family status on employment prospects and career development, especially for new parents and newly married people.	Swiss National Centre of Competence in Research (LIVES) University of Lausanne, Switzerland
Marttila	Mikko	Statistical Researcher, focused around the 1987 Finnish Birth Cohort study; following the cohort members from birth through childhood, adolescence and young adulthood using extensive data from Finnish nation-wide registers, covering several aspects of youth health and wellbeing.	The National Institute of Health and Welfare (THL) Oulu, Finland
Merikukka	Marko	Statistical Researcher, PhD student; preventive determinants of health and welfare of adulthood in childhood. Interested in register-based research, epidemiology, statistical methods and life course approach	The National Institute of Health and Welfare (THL) Oulu, Finland
Munthali	Richard	Mathematical Science: development and application of mathematical, statistical and computational tools in understanding the genetic contribution to the risk of chronic diseases	Bioinformatics and Epidemiology University of the Witwatersrand, Johannesburg, South Africa
Murray	Aisling	Main research interest is in cognitive development but as she works on a multi-disciplinary study she has conducted analyses on topics as diverse as fertility treatments, breast-feeding, childcare, and deprivation. For her work on the Growing Up in Ireland study, she is involved in all stages of a longitudinal study including the design of instrumentation, training protocols for fieldworkers, ethical submissions, data cleaning, and eventually analyses. She has a special interest in child protection issues in survey research.	Research Officer "Growing up in Ireland" Economic and Social Research Institute (ESRI) Dublin, Ireland

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
*Paroz	Anne-Laure	Doctoral student and research associate at the JC. Part of the COCON team. Research interests include the developmental course of competences, the significance of extra-curricular activities for the productive development, as well as gender studies. Concerning the methodology, she is interested in longitudinal data analysis.	Research Associate, COCON, Jacobs Center for Productive Youth Development, Zürich, Switzerland
Recksiedler	Claudia	Postdoctoral research fellow. Interdisciplinary program of human development and family studies: how the transition to adulthood is influenced by large-scale social influences, such as historic events and welfare state regimes	Institute of Social Sciences University of Lausanne, Switzerland
Ribeaud	Denis	Executive Scientific Project Manager and co-director of the Zurich project on the social development from childhood to adulthood – z-proso. Human development and aggressive behaviour, experimental research on violence prevention, as well as indicators and secular trends of youth delinquency.	z-proso, Jacobs Center for Productive Youth Development, Zürich, Switzerland
Seaman	Rosemary Joan	Postdoctoral researcher with the labour demography research group. The impact of unemployment and precarious employment, over the life course, has for health.	Research Scientist Max Planck Institute for Demographic Research, Rostock, Germany
Shah	Atiqul Haq	Postdoctoral at the Institute of demographic research. Sustainable development, social demography and climate change concerning the developing countries.	Center for Demographic Research Université Catholique de Louvain, Belgium
Shipovskaya	Valentina	Worked at a German NGO, which promoted health among adults in precarious life conditions. In Russia she worked in various prevention projects and has experience in fundraising and carrying out social projects related to art, science and social activism. Her research interests cover sociology of health, ageing studies, generations and life course, quantitative methods, and health-by-gender differences with focus on vulnerability across the life course and its impact on health.	M.A. in Social Sciences UZH, Zürich (2013)

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
Sieber	Stefan	PhD student at the Institute of Demography and Socioeconomics at the University of Geneva and part of the Swiss National Centre of Competence in Research LIVES. Started a PhD in social epidemiology, conducting research in health inequalities in Switzerland and in Europe and in life course influences on health, with the goal to analyse the changing patterns of health inequalities over time and examine the potential influencing life course factors on health in later life.	Institute of Demography and Socioeconomics (NCCR LIVES) University of Geneva, Switzerland
Steinhoff	Annekatriin	Postdoctoral research collaborator at the Jacobs Center; the significance of family and peer contexts for children and adolescents' social-cognitive, emotional and behavioural development.	COCON, Jacobs Center for Productive Youth Development, Zürich, Switzerland
Suh	Elie	PhD Candidate – he has a strong interest understanding how people understand and manage money and engage in borrowing and saving money, and what role the government and the financial industry play in shaping individuals' behaviours regarding money. In his PhD research, the focus is on examining the role of individuals' attitudes and behaviours in their retirement, on saving and accumulating assets.	PhD Candidate, Centre for Analysis of Social Exclusion (CASE), London School of Economics and Political Science, UK
Trinh	Nhat An	Research Assistant in Erzsébet Bukodi's project „Social Inequalities in Education“. Research interest include, transition from school to work, methods of longitudinal analysis and multi-level modelling, theories of justice and the normative underpinnings of social stratification research.	Doctoral Researcher Department of Social Policy and Intervention University of Oxford, UK
Tripathi	Tulika	Postdoctoral in health economics. The disparity in health outcomes and access to health services among socio- economic group in India.	Department of Public Health Sciences / Department of Medicine University of Chicago Biological Sciences Chicago, U.S.A.
Ugujyan	Andranik	Master Thesis. Study mechanism of ageing. Also functionalism and evolutionary psychology, evolutionary change in populations, social biology, modern human adaptation (in the last 6000 years).	Department of Bioinformatics, Faculty of Biology Yerevan State University Yerevan, Republic of Armenia

Student Participants for the SLLS 2017 Summer School, University of Zürich

Name	First Name	Discipline - (Area of Study for PhD)	Organisation
van der Linden	Rosemary Joan	PhD candidate; specialisation in clinical epidemiology. Healthy ageing from a life course perspective. The influence of life trajectories and critical life events on social inequalities in old age.	Center for the Interdisciplinary Study of Gerontology and Vulnerability (CIGEV) University of Geneva, Switzerland
van Loon	Mariëtte	Postdoctoral researcher at the department of Developmental Psychology. Children's ability to monitor and control their learning	Department of Developmental Psychology University of Bern, Switzerland
